2005
Health For All Indicators 2005

<i>2005</i>	<i>Indicators</i>	<i>No.</i>
1979 Bahrain committed to the Health for All since 1979	The number of countries in which health for all is continuing to receive endorsement as policy at the highest level	1
Annual Report from Health Education provides details of community involvement in health care.	The number of countries in which mechanisms for involving people in the implementation of strategies are fully functioning or are being further developed	2
...	The percentage of gross national product spent on health	3
22.1%	() The percentage of the national health expenditure devoted to local health services (Primary Health Care) - Ministry of Health	4
Provided free for nationals, available within 1 hour's walk or travel	The number of countries in which resources for primary health care are becoming more equitably distributed	5
Bahrain contributes to and benefits from WHO membership it receives no 'aid' as such.	() The amount of international aid received or given for health	6
100%	: The percentage of the population covered by primary health care with at least the following: Safe water in the home or with reasonable access and adequate excreta-disposal facilities available	7 7a
