

Introduction

The Ministry of Health has the pleasure in introducing the 10th edition of Doctors and Dentists Directory 2003. The directory includes names and contact details of doctors and dentists working in Kingdom of Bahrain in both sectors, governmental and private.

This edition contains doctors and dentists contact information that had been collected in early 2002. Details are classified and presented into two major sections, first section includes doctors names by alphabetical order, and the second is by speciality. Both sections provides the contact details of doctors and dentists for easier search.

In addition, the directory includes names, contact details and addresses of all government, private health institutions and pharmacies in the Kingdom.

I am very pleased to announce the availability of this directory on the Ministry of Health Website www.health.gov.bh. This is to enlarge our audience, beside it will allow doctors to update their own details electronically.

I would like to take this opportunity to invite all doctors and dentists in Kingdom of Bahrain to visit the Ministry of Health Website, and to use the available form "Doctors & Dentists Input Form" to add or update their details.

In fact, doctors participation in updating their details will ensure the validity of the doctors and dentists database which will act as the source for publishing future editions.

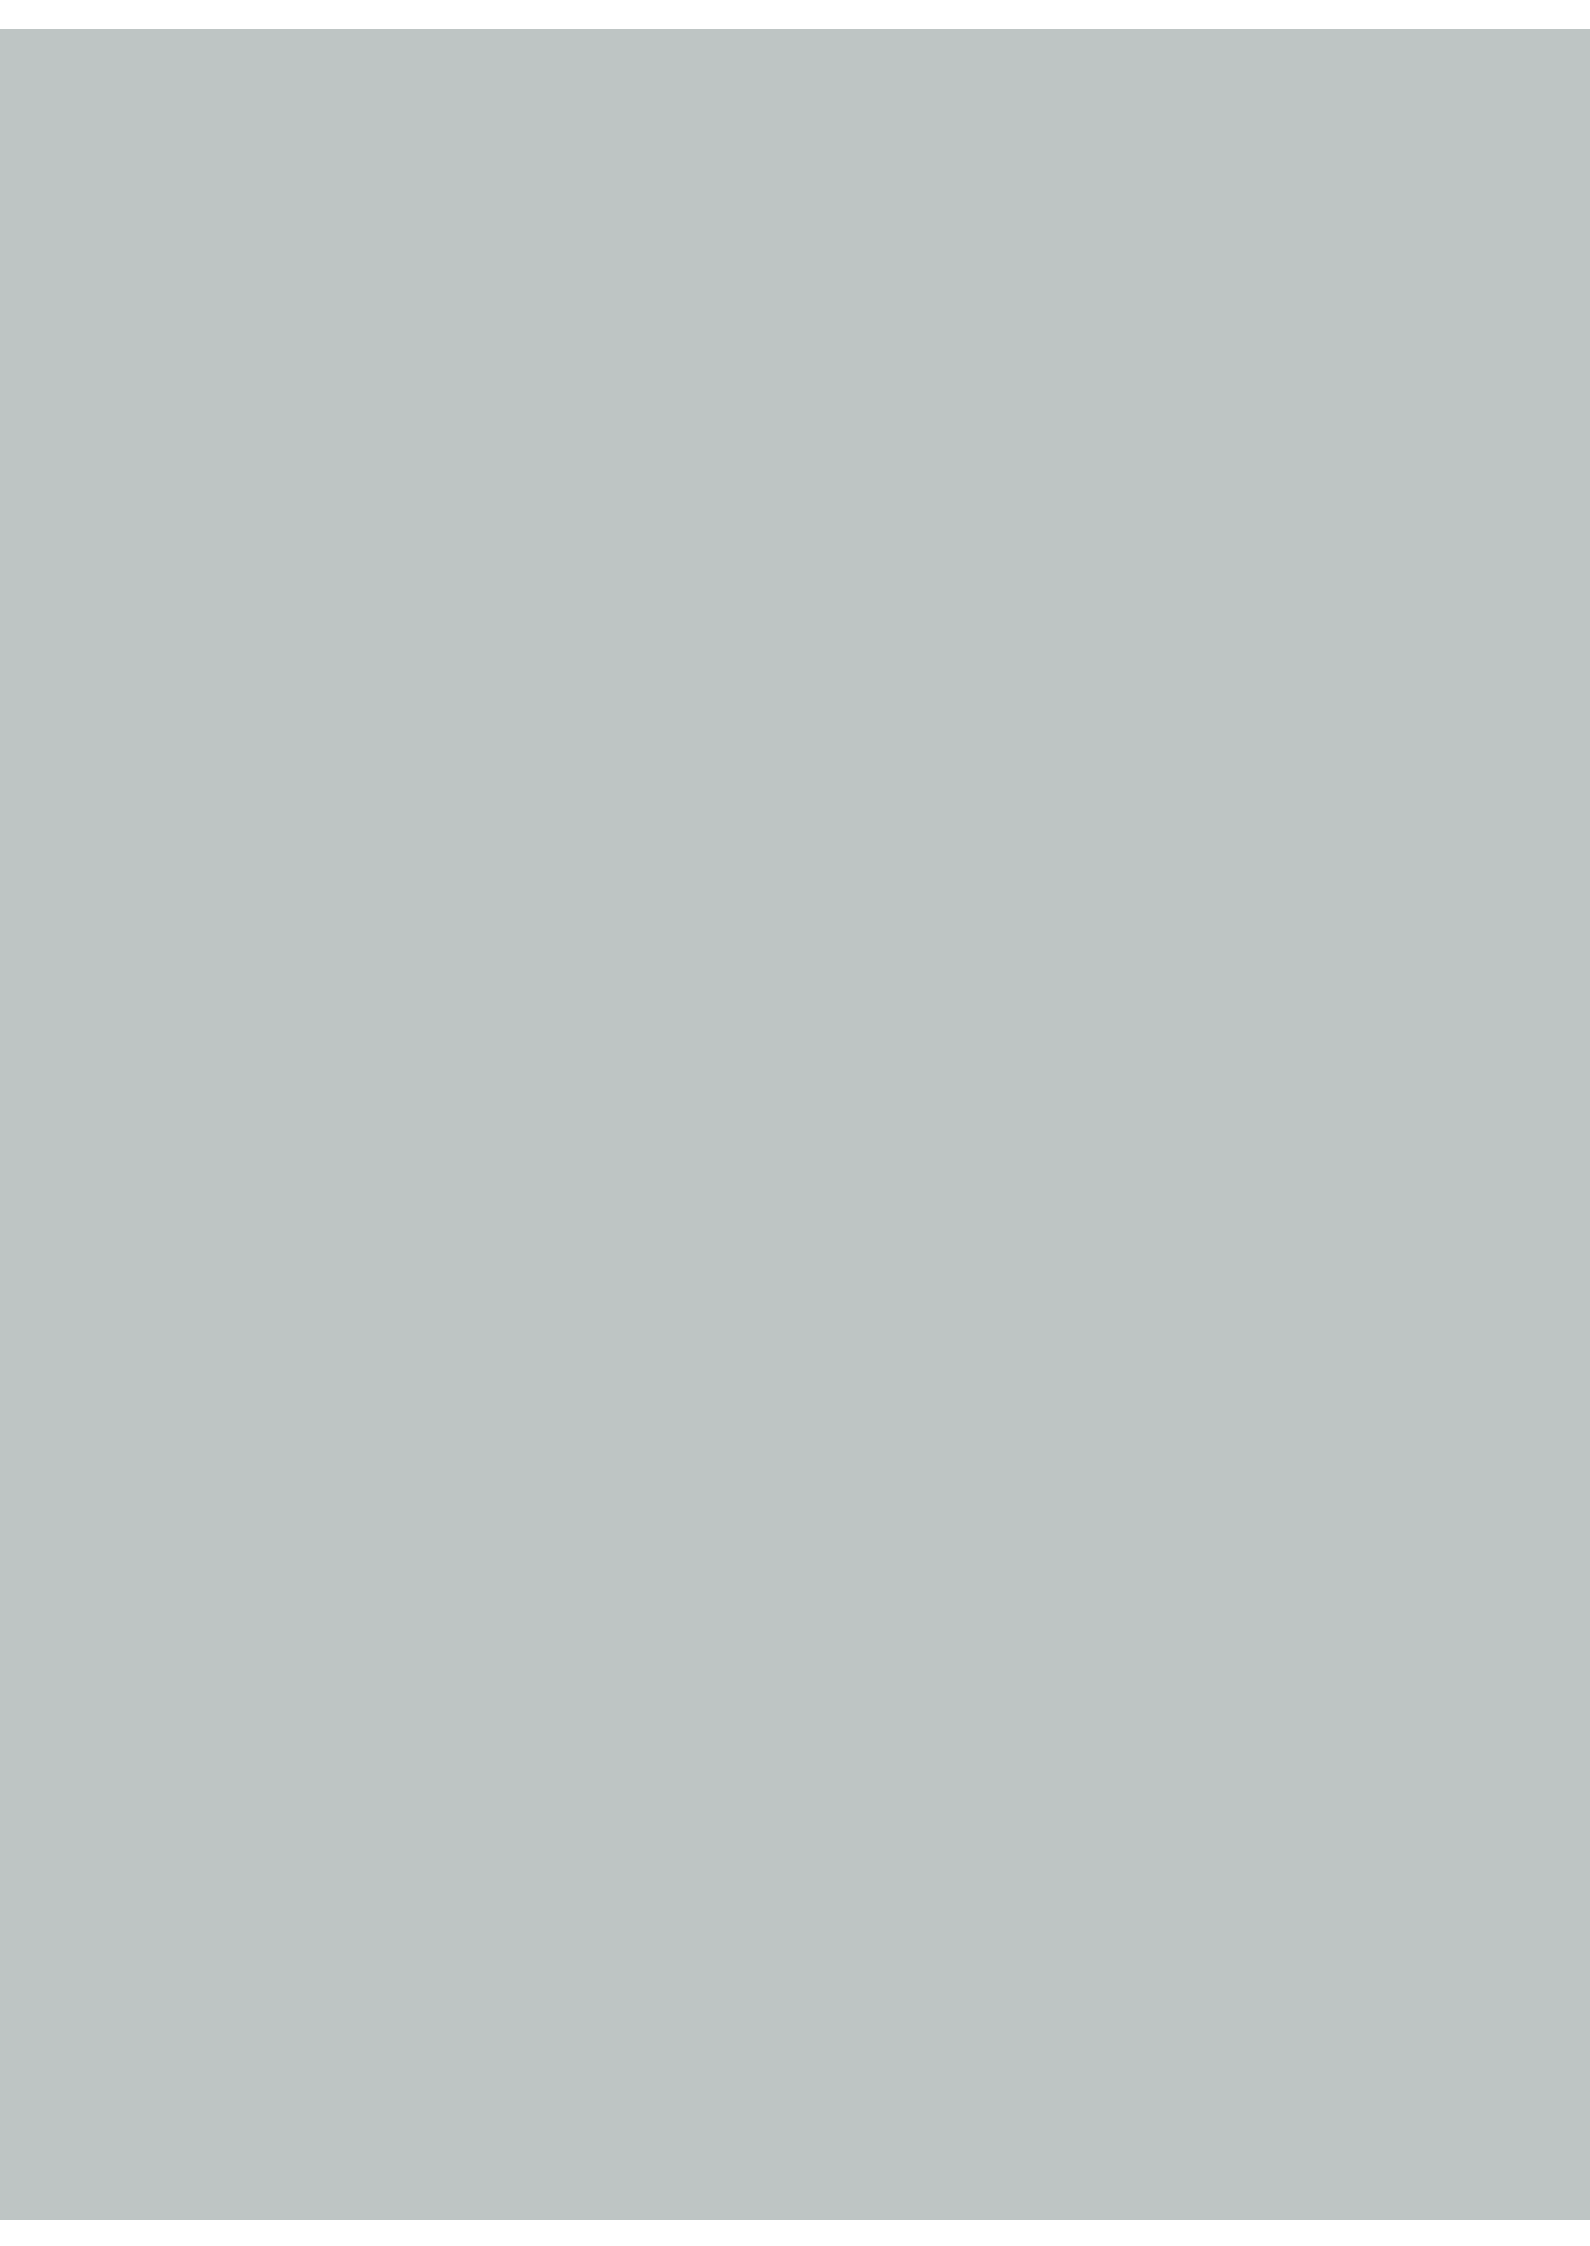

Finally, I would like to thank all doctors and dentists for their cooperation in producing this directory, and we look forward to receive your comments and suggestions for improvements.

Dr. Abdul Aziz Yousif Hamza
Undersecretary
