

# General Conventions

## General Notes:

Estimated population calculation was based on Central Population Registry (CPR) at Central Informatics Organisation since 2007.

Conventions used in this report to present information in a concise form other than those commonly published in Medical dictionaries.

**Language:** This publication is written in Arabic and English.

## Tables

a) % change:

- unless a negative value is indicated (-) all values are positive. (That is, they indicate a growth or an increase while (-) indicate a decrease. If no values is shown then any change or differences is considered to be insignificant or due to fluctuation rather than trend.
- unless otherwise stated, years compared are the first and last years for which data is provided.

b) Table numbering was illustrated at the top of the page, if more pages needed, the table number will be prefixed with (cont'd table ...).

c) The report contains some un-available data yearly as it based on national surveys or census.

## International Classification of Diseases

The Ministry of Health started implementation of ICD-10 - World Health Organization, printed 1992 effective from 2003, while in previous years ICD-9 - World Health Organization, printed 1975 were implemented.

## Nurses
