

Submission of Research Protocols

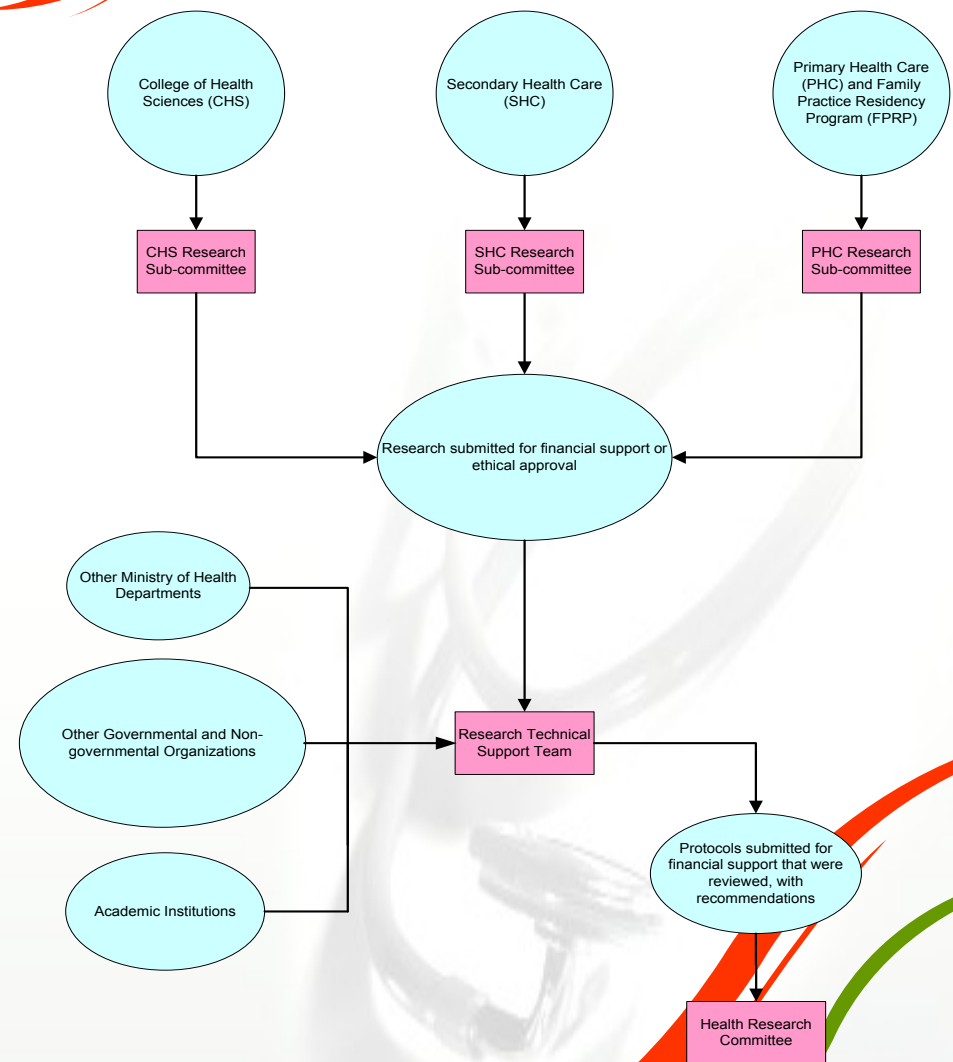

- All research protocols from the Ministry of Health (MOH) staff should be directed to concerned Research Sub-committees; Primary Health Care Research Sub-committee (PHCRC), Secondary Health Care Research Sub-committee (SHCRC) and College of Health Sciences Research Sub-committee (CHSRC).
- Researches that need further technical support, or ethical approval should be forwarded to the Research Technical Support Team (RTST) by the sub-committees.
- All research that need financial support should be forwarded to the RTST by the sub-committees.

The Following Documents Should be Submitted for Approval of Research Protocols

- A formal letter:
 - ◊ From the principal researcher (M.O.H staff).
 - ◊ PhD and Master Students should submit an official letter from the supervisor or administration in-charge.
 - ◊ Staff from other healthcare organizations should submit an official letter from the chief executive officer or chief of medical staff.
- Application for Approval of Research Proposal Form (PhD and Master students should submit full research protocol).
- Ethical Guidelines for Health Research Form for ethical approval.
- Budget Breakdown Table should be completed if research grant is required (found in the Application for Approval of Research Proposal Form).

Note: all forms are available on MOH web-site.
