3 weeks

The phased reopening will be dependent on several indicators including:

- Total number of positive results against the total number of daily COVID-19 tests
- The number of cases requiring intensive care of the total number of active cases
- The occupancy rate in isolation and treatment facilities

It was also decided to allow the gradual reopening of tourism restaurants, including those located in 4 and 5 star hotels and those authorised by the Bahrain Tourism and Exhibitions Authority, in accordance with medical and preventive requirements, by allowing reservations for special occasions that do not exceed 20 people per group and provided that reservations do not exceed one reservation each time, effective immediately.
