

The National Medical Taskforce for Combatting the Coronavirus

Approves a booster vaccination for those who have been fully vaccinated for six months with the

- Pfizer-BioNTech
- AstraZeneca (Covishield)

for those aged 60 and above

and the immunocompromised

Those who qualify for the booster dose can choose to take the Pfizer-Biontech vaccination or take the same type of vaccination that they took for their first and second doses as a booster dose.

Starting from 1 October 2021

The vaccination status of individuals eligible for a booster shot will change on the BeAware Bahrain application from the Green Shield to the **Yellow Shield** until they opt to receive a booster shot.

The green vaccination shield will return after receiving the booster dose

The opening of registration for the booster dose will be announced in due course
